**FOR IMMEDIATE RELEASE**

December 14, 2022

## **CHW Welcomes Andy Woodruff and New Ecological Services Department to our Multi-Disciplinary team.**

CHW now offering in-house Ecological Services

**Gainesville, Ocala, Jacksonville, Fort Myers, FL, December 14, 2022** – CHW Professional Consultants, a leading planning, surveying, engineering, landscape architecture, and construction services firm announces the enhancement of its multi-disciplinary team with the addition of an Ecological Services Department. Andy Woodruff joins CHW as Vice President and Senior Ecologist bringing over 30 years of ecological and environmental expertise in markets such as commercial, residential, transportation, marine, agricultural, mining, geophysical, and wetland mitigation projects. He offers the experience and portfolio to assist CHW in launching this new line of services that will better serve our clients and communities.

*“It’s an exciting time to join the CHW team,” says Andy Woodruff, Vice President, and Senior Ecologist. “Bringing Ecological expertise into such a collaborative environment will help strengthen CHW’s service offerings, further our connections with the community and environment, and keep us focused on client relationships and the positive influence our projects have.”*

Woodruff will manage the Ecological Services Department and staff, help drive environmental and business opportunities, and manage multiple ecological and environmental contracts with public and private clientele.

*“Andy is a wonderful addition to our CHW team. He has over 30 years of ecological consulting experience and his expertise will prove invaluable as CHW launches this new line of services to better serve our clients”. Says E.J. Bolduc III, FASLA, PLA, CHW Sr. Vice President*

### **About CHW Professional Consultants and our New Ecological Services**

Founded in 1988, CHW Professional Consultants is a multi-disciplinary firm providing civil engineering, land surveying, land development planning, ecological services, landscape architecture, transportation planning and traffic engineering, and construction services, to clients in the private and public sectors. CHW’s 95+ employees proudly collaborate with municipalities, state agencies, developers, landowners, utility companies, and industrial, healthcare, education, and nonprofit clients from project concept to completion, taking a customized approach to every project. CHW delivers world-class performance focused on creating effective, long-term partnerships with its clients.

CHW's Ecological Services team was founded to assist clients and communities obtain sound environmental guidance and balanced solutions for all their development and mitigation needs. From project inception to completion, we develop efficient holistic solutions backed by a multi-disciplinary team of experts to help navigate the complex regulatory rules and permitting process specializing in:
