FOR IMMEDIATE RELEASE
January 18, 2023

CHW Branches to Southwest Florida with DagGeo

Expanding our multidisciplinary services reach

Gainesville, Ocala, Jacksonville, Fort Myers, FL, January 18, 2023– CHW Professional Consultants, a leading planning, ecological, surveying, engineering, landscape architecture, and construction services firm is pleased to announce its expanded presence in Florida's Southwest region with the acquisition of Dagostino Geospatial, Inc.

The CHW and DagGeo expansion will create a comprehensive network of integrated services, allowing CHW to better serve the community by unifying with a strong team of experienced surveyors and ecological services staff in Southwest, Florida. This will include everything from boundary and topographic surveys to wetland and habitat assessments, which will be of great benefit to clients who are planning infrastructure projects, commercial development, and residential construction.

"This acquisition is a significant step in our mission to provide multi-disciplinary, high-quality professional consulting services to our clients in the Southwest Florida area." said Robert J. Walpole, CEO/President of CHW." By combining the expertise of CHW and DagGeo, we will be

able to offer a wider range of services that further strengthen our impact on Florida's infrastructure. Additionally, we are thrilled to welcome David Dagostino and the DagGeo team. Their 25+ years of expertise and experience in the land surveying and geospatial industry will be invaluable as we move forward and continue to grow across Florida."

"We are excited to join forces with CHW and bring our expertise to the table," said Dave Dagostino, PSM, CHW Shareholder and Vice President. CHW and DagGeo share a commitment to quality and collaboration. Their culture, projects, and skills seamlessly integrate with ours."

About CHW Professional Consultants

Founded in 1988, CHW Professional Consultants is a multi-disciplinary firm providing civil engineering, land surveying, land development planning, ecological services, landscape architecture, transportation planning and traffic engineering, and construction services, to clients in the private and public sectors.
